Because the area to be traversed by the proposed pipeline is our home, we believe we have a right to the inclusion of the enclosed provisions. Further, there can be no question but that the Secretary of the Interior, since he is a trustee for the rights and interests of the Native people, has a responsibility to include these provisions if his trust is to be adequately discharged.

At the Washington hearings comments were also made by representatives of some of the Native Villages directly affected by the pipeline regarding provisions necessary for protection of their interests. We support their recommendations.

Respectfully submitted,

Donald R. Wright
