

Color Mixing Station

Mix up some colors!

- Take an eye dropper full of one color
- Put it into a cup
- Take a different color and put it in the same cup
- What happened?

This is an open ended activity, there is no right or wrong. Can you and your child make a color you've never seen before, or one that you love?

Ask these questions to prompt great language:

- How did you do that?
- What do you think will happen when you mix these two colors?
- What do you think colors might smell like?
- What color are your eyes?
