

# Letter Hop and Search

## Hop:

- Children can hop from square to square.
- Ask your older child to try and name each letter, or find the one their name starts with. Don't worry if your child can't name any. Help them identify letters that are in their name.
- Younger children can hop along. Simply having letters available to see will begin the recognition process.
- Repetition makes for learning. Whenever you see letters in your child's name, point them out!

## Search:

- Help your child find letters hidden around the room.
- When they find one, take it from its place and bring it back to the bin.
